Tools: Git & GitHub, VS Code, Figma, Firebase, Claude, Arena

Soft Skills: Client Communication, Requirement Analysis, Problem Solving, Team Collaboration

Professional Experience

Junior Shopify Developer | Betopia Group

- Develop and customize Shopify themes based on UI/UX and business requirements
- Convert Figma designs into fully responsive Shopify storefronts
- Improve UI/UX to enhance engagement and conversion performance
- Implement Shopify storefront features with clean, scalable front-end code
- Perform QA testing to ensure cross-device compatibility and bug-free deployment
- Collaborate with internal teams to deliver production-ready eCommerce solutions

- Communicate with stakeholders and handle project requirements effectively

Client Project Experience

- Delivered 30+ Shopify projects with focus on usability and performance
- Managed client requirements, feedback cycles, and revisions professionally
- Ensured project quality through structured testing and UI validation
- Built long-term client trust through clear communication and reliable delivery

Shopify Store Customization Projects (Client Work)

Fashion E-Commerce Store Development (Shopify 2.0)

- Customized Shopify 2.0 theme (Ella) using Liquid, JSON templates, sections, and blocks
- Developed dynamic, reusable sections to support flexible storefront customization
- Built core pages (Home, Shop, About, Contact) with mobile-first, responsive design principles
- Optimized hero banners and storefront UI for improved engagement and conversion
- Configured navigation menus and structured layouts using Shopify theme schema
- Applied brand-specific styling using HTML, CSS, and Tailwind CSS
- Conducted QA testing including cross-browser, responsiveness, and UI validation

Figma to Shopify Implementation (Custom Theme Development | Liquid)

- Translated Figma designs into pixel-perfect Shopify storefronts using Liquid template
- Worked with Shopify Theme 2.0 architecture (sections, blocks, JSON templates) to build modular layouts
- Implemented custom Liquid logic, schema settings, and reusable components

- Ensured clean, scalable front-end code aligned with Shopify best practices
- Optimized responsiveness and usability across multiple devices and screen sizes
- Assisted in performance optimization (layout structure, asset handling, UI efficiency)

Apparel Brand Shopify Store Setup & Optimization (Conversion-Focused)

- Built and customized Shopify storefront using Liquid, sections, and dynamic content blocks
- Developed key pages (Home, Collections, Product, About, Contact) with conversion-focused UI/UX
- Integrated media (hero video, banners) with attention to performance and loading behavior
- Configured essential store settings including navigation, policies, and layout structure
- Supported third-party app integrations and storefront customization
- Performed end-to-end QA testing, ensuring bug-free deployment
- Delivered scalable store structure ready for content management and future enhancements

Education

Bachelor of Science in Computer Science and Engineering

Daffodil Institute of IT

Certification

- Complete Web Development Course by Programming Hero
